

**EXCLUSIVE – THE POWER METER IN YOUR POCKET**

**Satori-Technology introduce the worlds first PDA based power meter!**

Following the preview at Autotestcon – Baltimore, USA Satori Technology has launched the ST-1. The worlds first PDA based power meter.

The ST-1 brings unique levels of portability and affordability to RF/Microwave power measurements previously not possible.

With a battery life of 3 hours between charging and prices starting at less than £1,000, this is a must for Installation and Maintenance Engineers the world over.

The ST-1 will be available in three options.

- ST-1 opt A 10MHz to 12.4GHz, -50 to +20dBm.
- ST-1 opt B 10MHz to 18.5GHz, -50 to +20dBm.
- ST-1 opt C 10MHz to 26.5GHz, -50 to +20dBm.

**Measurably better value**
